OR

3. They are functionally disabled as defined in Section 102(7) of the *Developmental Disabilities Assistance and Bill of Rights Act (42USC 6001(7))*: "Severe chronic disability of a person 5 years of age or older that: (a) is attributable to a mental or physical impairment or a combination of mental and physical impairment; (b) is manifested before the person attains age 22; (c) is likely to continue indefinitely; (d) results in substantial functional limitation in three or more of the following areas of major life activity: self care, receptive and responsive language, learning, mobility, self direction, capacity for independent living, or economic self sufficiency; (e) reflects the person's need for combination and sequence of special interdisciplinary or generic care, treatment, or other services which are of life long or extended duration and are individually planned and coordinated.

Persons who have acquired immunodeficiency syndrome (AIDS) or any conditions arising from the AIDS virus are not excluded from this definition.
